	Dinner On Your Own	
TUESDAY, APRIL 9, 2024		
7:30am	Breakfast	
8:00am	Innovation Workshop Hackathon: Participate in a 4-hour innovation skills workshop within the Summit with your one big new thing that needs to be accomplished and walk away ready to execute. The Sonsiel Organization will be facilitating the workshop by working with you to take you where you need to go to be successful. Bring your team for a richer experience as you learn together through a Hack-a Thon experience to create the competitive edge. The primary objective of a healthcare hackathon is to rapidly prototype and develop innovative technologies, processes, or ideas that can enhance the delivery of healthcare services and education, improve academic and patient outcomes, and tackle various healthcare issues. Participants work in teams, usually over a fixed period ranging from a few hours (at the Summit) to a few days (as you continue to work forward), to create new workflows, software applications, hardware devices, or policy solutions. Very few have had the opportunity to experience a Hack-a Thon- but when you leave you will be inspired to continue your work in an effective manner. You may even seek a fellowship opportunity in Innovation!	Rhonda J. Manns, MBA, BSN, RN, CCM - Nurse Innovator, Sonsiel
12:00pm	Summit Wrap Up	
12:30pm	Box Lunch - Attendees can continue networking or depart for travel home	
*12:30-5:00pm	E3 Fellow Workshop with CCL (2024 Cohort); box lunch/orientation for first 30 min followed by workshop 1-5pm
